XSS Attacks ♥

EXPIRED

Perpetually increasing difficulty level of XSS attacks

 15-45 Minutes  400 Points 3/10 Difficulty

Start

Stop

 You have already completed this exercise. [Mission Statement](#)  [Verify Flags](#)

This lab provides you an increasing level of difficulty with the every following flag you achieve.

Starting from the simplest XSS attack you'll receive the flag value on the redirection by successfully calling an `alert()` function through the vulnerable parameter.

Every consecutive flag will be of higher difficulty. Use your skill to exploit the `flag` parameter and get the flag!

Vulnerable Web Application URL: `http://10.1.3.99`
